General Regulations

Surveillance visits

Surveillance visits are normally conducted once a year. The whole quality system will be re-assessed within a three-year period. Additionally, surveillance may include unexpected visits to the manufacturer, when considered necessary.

Validity

The validity of the assessment is automatically prolonged within the period of validity as long as the results of the surveillance visits are approved.

Each third year a re-assessment is performed to verify overall continuing effectiveness of the supplier's quality system in its entirety.

Changes

The company shall inform Kiwa Sweden AB of all planned substantial changes to the assessed system.

Additional information

For further information see General Regulations issued by Kiwa Sweden AB.
